Minnisink claim. On Dec. 9 of the same year Carroll gave another trust deed, covering the remaining half of the Minnisink to Aschheim to secure a note in the latter's favor for \$81.10.

the latter's favor for \$81.10.

It is then alleged that Mrs. Carroll was allowed credit and goods at the Aschheim store from time to time, and In small amounts, with the understand-

n

传

day.

The Bonanza Consolidated has not yet cut through to the ledge, but the formation is getting softer and is quite heavily impregnated with galena. Superintendent Clark has two shifts at work and believes the quartzite will soon be reached. The consolidated has not yet cut through to the ledge, but the ledge. But the bins for a very small sum per ton, and with the success of the Mammoth Mining company in securing a reduction in the smelting rate, the management should feel encouraged to again besiege the ore-buyer.

BIG HOPS.

On Thursday the J I C broke through into a fissure of water that in three minutes raised the water in the shaft that many feet. The sinking punnp was not able to handle the extra volume of water and Manager Turner went into the city at once to order a larger pump. The water up to the present shows no signs of abating. The shaft is down about 520 feet and shows a softer form-Until the new pump is put in, sinking

will be discontinued.

Foreman John Hasson at the Corona has got the shaft down to the seventy-five-foot level, which is making pretty good progress with two shifts in sixteen days. The formation is now quite regular and it is expected the footward will be cut in a few days.

DIVIDED THEIR HOLDINGS.

John Q. Packard and Woodriver Partner Segregate Properties.

According to the following from Wednesday's Woodriver Times, it is evident that John Q. Packard has been making a division of 'his Woodriver making a division of his Woodriver properties in order that a partner might make a sale of some of the ground:
John Q. Packard has released and discharged to H. E. Miller all his right, title and interest acquired by mortgage in and to the Relief, Hope, Erie and Chili Fraction claims, near the Minnie Moore, in order to enable the said Miller to give a clear title to the same to the Idaho Consolidated Mines company, for the sum of \$18,000.

In consideration and payment of the sum of \$81,388.69, expended by John Q. Packard in developing the Copperopolis, Coyote, Blue Bird; Tom Benton, Klondike, Dunkirk, Richmond, Bechtol, Douglas, Wheeling and Lone Tree mine

Klondike, Dunkirk, Richmond, Bechtol, Douglas, Wheeling and Lone Tree ming claims, on the Hailey gold belt, for the benefit of H. E. Miller, the said Miller has deeded to the said Packard all of his interest in the said claims.

In consideration of \$1, John Q. Packard has sold to H. E. Miller all of his interest in lots 3 and 4, known as the 200-acre ranch, two miles southeast of Bellevier; also in the race track ranch.

Believue; also in the race track ranch; also in the five acres immediately south of the race track; also in the Kingsbury and Brown irrigating ditch; respectively.

Suit to Recover Claims.

ALLEGES INLAWFULTRANSER

Sale of COAL LANDS NEAR MY.

TERASANY, the object of the Interior of the Int

Carroli. The action is brought by Mrs. Carroll through her attorneys, McGurrin & Gustin, against the Little Bell Mining company, the Daly-West Mining company, the Daly-West Mining company, M. S. Aschheim Mercantille company, Solon Spiro individually and as trustee for both the Aschheim The Daly-West company is made a party defendant because of some equity it is presumed to have in a portion of the ground in controversy.

The grounds upon which plaintiff relies for relief are that the properties in dispute were unlawfully sold at a prelended trustee's sale and consequently lirregularly transferred to the Little Bell company. It is alleged that on Nov. 20, 1896, John J. Catroll was the power of the Minnisink mining claim, 1,000 feet in the Bora of the Hills, 500 feet in the Bora of the Hills, 500 feet in the John Mackay, 500 feet in the John Macka

south. In each place the vein is wide and strong, the filling of quartz with a seam of copper or from two to four feet across in which both carbonates and sulphides occur.

The grounds upon which plaintiff refet across in which both carbonates and sulphides occur.

Directly under the tunnel stope and bispute were unlawfully sold at a pretended trustee's sale and consequently irregularly transferred to the Little Bell company. It is alleged that on Nov. 20, 1896, John J. Carroll was the pwmer of the Minnisink mining claim, 1,000 feet in the Bora of the Hills, 500 feet in the Croppy Boy and 150 feet in the Paranell claims. On that day, which was shortly before his death, Carroll conveyed the properties named to Mary Carroll, his wife, and who, up to a shortly before his death, Carroll conveyed the properties named to Mary Carroll, his wife, and who, up to a short time ago, thought she was the pwmer of them.

In September, 1894, however, Carroll gave a trust deed to Solon Spiro to secure a note executed in favor of M. S. Aschhelm for \$484.58, the deed covering all the property mentioned with the expectation of a one-half interest in the Minnishk claim. On Dec. 9 of the same year Carroll gave another trust deed.

Some day one of the richest mines in the Minnishk claim. On Dec. 9 of the same year Carroll gave another trust deed.

Some day one of the richest mines in the Minnishk claim. The permanency of this demand stope of quartz that with a seam of competition of a one-half interest in the ground and storage the principal interest in the Good Hope property and a trust the commence work on their property on a larger scale. The liveliest winter in its history.

The grounds upon which has been feet det where the liveliest with a rich expectation to for owners, who are composed of some of the wearence property well turn out to be the southeast and within fifty feet penetrated a solid body of quartz that measures thirty-five feet between walls, fire the property will turn out to be a shortly property and the propert

ers, could be made to assist materially in profit-making. Superintendent Tre-loar states that this ore can be put into

company is deefly in earnest in its efforts to open a mine in that locality. To those unacquainted with the preliminary work necessary in starting a large mining enterprise in a new locality, the work seems to drag, or is not sufficiently rapid to meet the anxious expectations of those financially intersufficiently rapid to meet the anxious expectations of those mancially inter-

In a deep gulch more than 2,000 feet

In a deep gulch more than 2,000 feet south of the crest of the Bullion-Cottonwood divide, the Log Cabin people selected the site of the long tunnel to be driven 2,500 feet into the mountain and compel it to reveal its secrets at a depth of 1,100 vertical feet.

First, there must be a trail over which supplies can be brought in, then shelter for the employes, timber to be cut, dragged in, shaped for the tunnel and a hundred things to be done of which the unlititated never dream.

Within the past few weeks a large log boarding house has been completed, a blacksmith shop built near the mouth log boarding house has been completed, a blacksmith shop built near the mouth of tunnel No. I, a magazine in the hill-side completed and a large provision cellar under headway. In addition, some two miles of road has been built and which will largely reduce the cost of getting in supplies.

and which will largely reduce the cost of getting in supplies.

Tunnel No. 1 has started on its journey into the mountain and is now 120 feet in. Beginning at the mouth the bore is well and solidly timbered.

Before going to the tunnel site the surface of the ground to be explored was carefully gone over by the writer, and it can be truthfully stated that it justifies the large undertaking now successfully launched. The surface shows the croppings of several strong vetus irrespective of the Snow Bird, which is the objective point. Rich float and is the objective point. Rich float and croppings are in evidence all along the course of the tunnel and give almost To the east of the tunnel some 600

small cave which was opened Tuesday of necessity got to be on that ground. Some day one of the richest mines in the country will be discovered there. A superabundance of water is still being a great source of trouble at the 200-foot level in the Johnny. Recently a larger pump was installed, which is the crest of the hill and 750 feet to the south, the vein shows equal strength and promise, and between these two extreme points the Josephs cross-cut, which has been sent out from the 700 level, is within sixty feet of the channel. There seems to be every certainty that the fissure is the same on the tunnel, 100 and 700 levels, and that

At Depth of 200 Feet Mine is Producing \$100 Rock.

An Idaho City dispatch to the Boise Statesman quotes James Greenwood, who had been visiting Loon creek, as follows on the Lost Packer: "The Lost Packer, at Loon, has been Log Cabin Company Driving Tunnels to Cut Veins at Great Depth.

(Marysvale Free Lance.)

A recent trip to the Log Cabin group of mining claims furnished indubitable evidence that the Log Cabin Mining company is deeply in earnest in its efforts to open a mine in that locality.

"The Lost Packer, at Loon, has been developed to the depth of 200 feet by unnel. Ore shipped to Salt Lake gave net returns of \$100 a ton—this after deducting both transportation and reduction charges. Ore is now being packed to a lake, eight miles from Custer, to which point a wagon road has been developed to the depth of 200 feet by unnel.
